Related subject: Westbury -on -Trym & Henleaze / Southmead

Due to the positioning of the boundary line between Southmead and W-o-T & Henleaze, my vote in local elections counts in Southmead, which I don't think is appropriate as someone who doesn't engage or interact with the vast majority of the ward and frankly have little informed opinion about, which discourages me from voting in local elections. I think the boundary line makes more sense if it were further East for residents to be better represented.
