Related subject: Portland

Portland is unique and has its own set of challenges. It is important to retain the ward boundaries that we have. Previously when we had a counsellor for Underhill and Wyke, it did not work. Because the needs of both are so different there was a conflict of priorities and the councillor for that district was biased to Wyke where they lived. The numbers are not so far out for Portland so it is important to leave the wards and polling districts as they are.
