**Related subject:** Stannington ward

I live within about 1.5 miles of Hillsborough in one direction and Oughtibridge in the other direction yet I am in the Stannington ward which is five miles away. All the services I use such as my GP, public transport, shops, libraries and parks are either in Hillsborough or Oughtibridge. I can't even access Stannington by a bus, it is miles away from where I live and not somewhere I would ever go. It makes no sense to be in Stannington ward, I have no affinity with the area and I would rather be part of a ward where I am using the services.
