Related subject: Boundary for gleadless valley ward

Please can consideration be given to residents of Ashbury Drive to join the Graves park ward rather than Gleadless Valley ward.
Having discussed with other residents I have decided against voting in any future local by-elections under the current ward,
I believe the residents of gleadless valleys needs are very different to mine on ashbury drive, therefore, it would be unfair for me to vote.
I have given consideration to residents demographics, the geographic location of my address (ie .25 mile from Graves park gates), the location of schools which our children attend, types of housing, types of transport etc.
Please can you consider these point for discussion.
Thank you for your kind consideration.
